November 7, 1966

Dear Mrs. Kaiser,

The Kekionga Amateur Radio Club wishes to express a very deep appreciation for your generous contribution to our club. At the time of your contribution the Kekionga Amateur Radio Club wollowing in a nadiar of interest unequaled in our history. Then, with your aid, and some additional help from Tech's Student Senate, interest in the Kekionga Amateur Radio Club began growing. It began growing because the club was finally able to buy some modern equipment to replace the extremely obsolete equipment that was being used.

Actually what has happened since the new equipment was bought is a history in it'self. A non-licensed member was inspired to achieve a Novice License. The logbook, instead of showing a half page of activity per week, showed a page per day. Meetings picked up, and interest grew.

Then came summer, and the club ceased to function. But during the first week of the fall quarter, the station of W9BHR began assembling into a giant beyond our wildest dreams. All old members back at Tech were there. Many new members were there and were impressed with what they saw. The momentum started last spring was back, but magnified

many times. So, from the point of lowest interest, the ball is rolling for an unknown zenith. However we shall never forget that you furnished the big push to start it.

Perhaps we sound corny, but we are sincere, and our debt is everlasting. We regret that this thank you is so late. We offer no excuse because none would be satisfactory.

In closing, there are two things that we would like to do. The first is to send you some photographs of our clubroom. The second, on unanimous election of the club, is an offer for a lifetime honorary membership in the Kekionga Amateur Radio Club.

Again we thank you.

Yours truly,

Fellow Members of The
Kekionga Amateur Radio Club
