

Album 2. Wagner-Bliley Album Uncaptioned Scanned August 2015

Introduction

This is a very unusual album. Most of the photos in it are duplicates of ones used in other family albums created by Sam and Inez Wagner. It appears to be a work-in-progress as it lacks usual captions written by Inez.

Unfortunately, there are also a few “new” ones of which I cannot identify any of them.

The 60 pages broke away from the binding during handling. This album was in a very fragile condition and the damage could not be helped.

The upside is that I was able to easily scan all of the images in a higher resolution that has previously been done. Unfortunately, creating a cross index to these photos in other albums is a task beyond my available time or energy.

Charles A. Bliley
Rochester, NY, USA

Scanning Techniques and Practices

The album was scanned first as whole pages at 600 ppi, then a few individual photos were scanned at 600 or 1200 ppi. Almost all individual photos were scanned at high resolution. Virtually all files are in the TIFF format to retain the image’s high quality.

The album numbers in this series were numbered in what originally appeared to be chronological order for convenience and quick identification.

NOTE: All images were color corrected and adjusted for maximum clarity to remove effects of aging or tinting, or to improve the contrast to bring out “hidden” details. Consequently, these scans may not represent the actual images as seen in 2015. These adjustments were done for the benefit of future viewers who may not have the tools or skills to make these adjustments.

Photographic Images of Pages and Individual Photographs

The following are lists of file names created during this project in the master file folders. You are free to embellish this list by adding your own notes. Variations of these files may be created at lower resolution for reference and Web purposes.

File names begin with the album name and page number, followed by front/rear side, and resolution in ppi.
