

# Album 3. Frank A. Bliley's College Years - Album 1

## Scanned: February 2015

### Introduction

My grandfather, Frank Anderson Bliley (1865–1946), two schools after he graduated from secondary school at the age of 16 in 1881. He then entered Edinboro Normal School (College) in 1881 and the next year transferred to North-Western Normal School where he studied “commercial science”, seeking what is now known as an associate business degree. He then returned to Edinboro to complete his studies to become a teacher and graduated in 1886 at the age of 20.

This album seems to reflect his social life at college with lots of photo of men and women from those years. He noted on several photos the death dates of the individual. An obituary for Jennie Akins, was found elsewhere; she may have been a love interest measured by the notation on her photo, the presence of an obituary, and her photo appearing on the first page of this album. She never married; perhaps, from a broken heart from Frank's rejection. You can come to your own conclusion.

The album is also sprinkled with photos of family members and himself. He appears to be a bit narcissistic with this album and another with photos of himself every year and in several poses and even had a poster-sized drawing made of himself in Chicago from the 1887 tintype in this album. Still, he cared a lot about his family, their history and did much to be proud of in his life. We owe a great debt of gratitude to him for preserving and documenting family archives, including this album among many.

Charles A. Bliley  
Rochester, NY, USA

### Photographic Images of Pages and Individual Photographs

The album was photographed as found in the Boulder archives for quick reference. Then, scans were made of each photo in the order in which they appear in the album. Since most of the photos had captions on the back of them, the file names were created based on the captions and not on the sequence in the album.

The following are lists of file names created during this project in the master file folders. You are free to embellish this list by adding your own notes. Variations of these files many be created at lower resolution for reference and Web purposes. The page and photo sequence in the original Web gallery can be used for reference to see the relationship of the photos to others in the album.

The file names incorporate the page number (Page 01, Page 22, etc.), photo number (P1, P2, etc.) sequence on the page, front view (A) and rear caption (B). For example: "Bliley, FA College Album 1-Page 11-P4B-Echols, Samuel.tif"

## Scanning Techniques and Practices

The album consisted pages containing two frames for photos. In most cases three small photos were placed in one frame. All files are in the TIFF format to retain the image's high quality.

**NOTE:** All images were color corrected and adjusted for maximum clarity to remove effects of aging or tinting, or to improve the contrast to bring out "hidden" details. Consequently, these scans may not represent the actual images as seen in 2015. These adjustments were done for the benefit of future viewers who may not have the tools or skills to make these adjustments.
